BOOK OF THE MONTH

““This is Agatha Christie’s masterpiece, and if she never wrote another word, she’d have still gone down as the Queen.” –LOUISE PENNY, #1 New York Times bestselling author

“Ingenious and unexpected.” –NEW YORK TIMES

The official edition of the beloved classic voted by the British Crime Writers’ Association as the “Best Crime Novel of all Time,” now featuring a new introduction by Louise Penny, a foreword from Agatha Christie’s great grandson, and exclusive content from the Queen of Mystery.

Roger Ackroyd knew too much. He knew that the woman he loved had poisoned her brutal first husband. He suspected also that someone had been blackmailing her. Then, tragically, came the news that she had taken her own life with an apparent drug overdose.

However, the evening post brought Roger one last fatal scrap of information, but before he could finish reading the letter, he was stabbed to death. Luckily one of Roger’s friends and the newest resident to retire to this normally quiet village takes over—none other than Monsieur Hercule Poirot . . .

Not only beloved by generations of readers, *The Murder of Roger Ackroyd* was one of Agatha Christie’s own favorite works—a brilliant whodunit that firmly established the author’s reputation as the Queen of Mystery.

Skin Care Routine

Moisturizer

Skin Care on the Budget

- *Reduces Dry Skin.* Moisturizing your skin helps you avoid dry skin. Our skin sheds dry cells frequently. In the lack of moisture, our skin becomes more prone to damage.
- *Relieves from Acne.* Believe it or not, acne-prone skin needs moisture too. Moisturising opens the pore in the skin, and the other ingredients reduce sebum and dirt.
- *Keeps the Skin Young and Bright.* Well moistened skin has more radiance and elasticity. It will keep skin problems such as wrinkles, acne, and other damages away.
- *Reduces Wrinkles and Fine Lines.* Moisturized skin is hydrated and has more radiance. It will keep wrinkles, fine lines, and pigmentation at bay.
- *Lessen the Impact of Environmental Conditions on the Skin.* In the lack of moisture, the skin becomes dry and vulnerable. It leads to damage from the sun and cold.
