LANDSCAPE

Rearranging the Garden and Greenhouse

This April you will see my garden in a very different light. Everything you see (picture above) will be completely different. The greenhouse that is circle in red that you see flip over in the woods is finally back up and in a new location. Very excited to show and share the new plans and ideas for it.

Garden Area and Small Greenhouses

In the first greenhouse that you see (picture on the left) I store all of my planted vegetables, herbs, and fruit seeds in here. This month I am very excited to transplant everything that is there to the main garden and start on new seeds. I get very excited around this time of year and watching everything that I planted grow from a seed to an actual vegetable or fruit just amazed me every time.

In the second greenhouse (picture on the right) I store all of my seeds, soil, tools, and more in here. Eventually, I will do the same thing to this greenhouse as the other one but right now until I finish with the Big Greenhouse this will be my storage greenhouse. I also, start some new seeds that will eventually be moved to the other greenhouse with the sprinkler system, so they can get the same treatment as the other ones did before they got moved to their new permanent home.

Cookbook of the Month

Magnolia Table Volume 3

Whether it's in the making, the gathering, or the tasting of something truly delicious, this collection of recipes from *Magnolia Table, Volume 3* is an invitation to savor every moment. In Joanna's first cookbook, the #1 *New York Times* bestselling *Magnolia Table*, she introduced readers to her favorite passed-down family recipes. For her second cookbook, *Magnolia Table, Volume 2*, she pushed herself beyond her comfort zone to develop new recipes for her family. In this, her third cookbook, Joanna shares the recipes—old and new—that she's enjoyed the most over the years. The result is a cookbook filled with recipes that are timeless, creative, and delicious! Just as in her past books, within each recipe Joanna speaks to the reader, explaining why she likes a recipe, what inspired her to create it in the first place, and how she prefers to serve it.

Book of the Month

Daughter's Pick

Nikki confesses all in her first diary ever: her epic battle with her mom for an iPhone, meeting her new soon-to-be BFFs Chloe and Zoey, falling for adorably sweet crush Brandon, dealing with her zany little sister Brianna's antics—and the immediate clashes with mean girl MacKenzie, who becomes Nikki's rival in a school-wide art competition.

Essential Oil of the Month

Lemon Eucalyptus

Lemon Eucalyptus essential oil is derived from a lemon-scented blue gum eucalypti plant, a tall tree with smooth bark. Native to northern Australia, the oil is known for its refreshing aroma that helps create an invigorating environment. Lemon Eucalyptus oil is high in cleansing citronellal and citronellol, making this essential oil ideal for surface and skin cleansing. In addition to its topical cleansing benefits, Lemon Eucalyptus can be used to clear and refresh the air. Keep Lemon Eucalyptus oil on hand when in need of a revitalizing boost.

WHAT ARE ESSENTIAL OILS?

Essential oils are the essence of a plant, a gift from the earth, distilled and prepared for you to bring the power of nature into your home.

Inside many plants—hidden in roots, seeds, flowers, bark—are concentrated, highly potent chemical compounds. These natural compounds are essential oils.

Essential oils give a plant its scent, protect it from hazardous environmental conditions, and even assist it with pollination, among other important functions and benefits.

HOW DO ESSENTIAL OILS WORK?

When you open a bottle of pure, unadulterated essential oil, your senses are instantly filled with its potent aroma, even from a distance. What your nose detects are the naturally occurring elements of the essential oil. Every essential oil varies in its natural makeup, so aromas and benefits are also unique. For example, Lavender oil includes elements that make it effective for soothing skin irritations, and promoting a restful environment for sleep. Meanwhile, when taken internally, Frankincense oil supports immune, nervous, and digestive systems, and aids in healthy cellular function.*
